OVERVIEW | 70011319-LX-EXB1-01 | A | Aug 2015 | **Option A**

Slipe Lane Public Footpath rights to be extinguished at the existing level crossing and diverted to a new ramped footbridge to the north of the crossing. Private user rights to remain unaltered. In the future it is also likely that Wharf Road level crossing will experience increased barrier closure time; therefore new shared surface connections to the proposed footbridge would also assist pedestrians and cyclists to cross the railway from Wharf Road. Where possible connections would also be made to Fairfield Drive.

Option shown is illustrative and for consultation purposes only.

West Approach:
North facing stepped access to Fairfield Drive and Wharf Road with south facing zig-zag ramp to Slipe Lane and Fairfield Drive.

East Approach:
South facing single ramp connecting to Footpath 22.
